ABOUT ME

Experienced Front-end Developer with a strong track record in creating and deploying web applications. Proficient in JavaScript, React, HTML, CSS, TypeScript, Redux, and other essential web development tools. Additionally, I possess an intermediate level of English proficiency.

I've served as Head of the Purchasing Department, collaborating closely with sales and marketing teams. I also possess hands-on experience with accounting software and in-depth market analysis skills.

My import industry background and work with foreign companies have cultivated attributes like responsibility, motivation, stress resistance, effective teamwork, and problem-solving, complementing my technical expertise for well-rounded contributions to web development projects.

SKILLS

- Typescript, JavaScript (ES2015–2019)
- React, Redux
- HTML5, CSS3, Sass (SCSS), BEM, responsive web design
- Bootstrap, Bulma
- Fetch, Axios, REST API
