PROFILE SUMMARY

Experienced Front-end Developer with expertise in creating and implementing web applications. Proficient in JavaScript, React, HTML, CSS, TypeScript, Redux, and other essential web development tools.

Held the position of Head of the Purchasing Department, working closely with sales and marketing teams. I also have hands-on experience with accounting software and its practical improvement.

My experience in the import industry and collaboration with foreign companies have helped me develop qualities such as responsibility, motivation, stress resistance, effective teamwork, and problem-solving skills. Combined with my technical expertise, these skills allow me to make a comprehensive contribution to web development projects.

SKILLS

- Typescript, JavaScript (ES2015–2019)
- React, Redux
- HTML5, CSS3, Sass (SCSS), BEM, Responsive Web Design
